**H**ey Christopher, I just wanted to talk to you because this whole time you have been so supportive. And although I have yet to meet you, I look up to you so much. My father was never there, and then after I found out my daughter was born I wanted to be so much different. And you have helped me and made my drive so much stronger. You're like a father figure to me man. You're truly my idol. Thank you so much. -Anonymous
